

# Financial Tearsheet

## Company Overview

PetroShare is actively expanding its portfolio of properties through organic drilling and development in addition to strategic acquisitions and joint ventures. The company's initial focus is on various opportunities targeting the unconventional Niobrara formation in the Rocky Mountain Region.

We are distinguished from other emerging oil and gas producers by our unique, multifaceted experience and the industry relationships of our management team. PetroShare closely tracks the demonstrated success of other operators in our areas of focus and optimizes what we believe to be the best drilling, completion and expense saving practices.
